PROFESSIONAL SUMMARY

Highly analytical and detail-oriented data professional with strong foundational skills in risk scoring, transaction analysis, and anomaly detection. Proficient in leveraging SQL, Python, and Power BI to investigate large datasets, identify irregular patterns, and derive actionable insights. Eager to apply advanced analytical techniques to drive data-driven decision-making and support cross-functional teams in a fast-paced analytics environment.

EDUCATION

B-Tech CSE – CyberSecurity | Vignan’s Institute of Information Technology | 2023 – 2027

Current CGPA : 8.54

CORE COMPETENCIES

- **Data & Advanced Analytics:** Predictive Modeling, Statistical Validation, EDA, Behavioural Pattern Analysis.
- **Technical Skills:** SQL (MySQL/SQLite), Python (Pandas,Seaborn,SciPy,Matplotlib), Power BI, Advanced Excel.
- **Business Skills:** Hypothesis Testing (A/B), Data Storytelling, KPI Dashboarding, Root Cause Analysis.

PROJECTS

Twitter Sentiment Analysis | Data Analysis and machine learning

- Performed data preprocessing using pandas , NLTK and regular expressions.
- Conducted Exploratory Data Analysis(EDA) with word clouds and visualization techniques.
- Evaluated model performance using Accuracy,F1-Score,ROC curve and confusion matrix
- Added emoji sentiment analysis and hashtag analysis for enhanced insights.

INTERNSHIP

Data Analytics Intern | *ApexPlanet Software Pvt. Ltd.*

| Feb 2026 – Apr 2026

- Applied Data analytics techniques to analyze business datasets and generate actionable insights.
- Performed exploratory data analysis, built interactive dashboards, and conducted statistical testing using Python, SQL, and Power BI across multiple real – world datasets.
- Delivered insights on retail sales trends, e-commerce performance, and landing page experiments while completing end-to-end analytics tasks including EDA, Dashboards, and A/B testing.

CERTIFICATION

- Nlite solutions – Python & Machine learning
- Oracle Certified Associate – MySQL
